

## UCC Expert

**Function type:** Vast                      **Location:** Brussels  
**Duration:** Long term                **Reference:** 202008330

### Description:

As UCC Expert you will be part of UCC Unit and a key expert in the daily operational needs of the UCC systems deployed & used.

You will be responsible for maintaining, analyzing, troubleshooting, repairing and supporting all the UCC solutions.

*(Networked Audio Visual (AV), Voice and Video over IP (VVoIP), Voice over IP (VoIP) and Video Conferencing (VTC) services,... )*

You will be the main point of contact for the UCC services with the customers.

Your responsibilities would include:

- Configure, implement & coordinate complex UCC projects
- Test, evaluate & migrate standards & new UCC products
- Continually seek, demonstrate, and share knowledge in the UCC field to result in optimum expertise and resources, through consultancy, 3rd level support and presales support
- Level 2 & 3 support to the NOC team for all complex projects, installations & incidents related to UCC solutions:
  - *Involve the NOC team with delegated projects/tasks.*
  - *focus on knowledge sharing with the team.*
  - *Lead internal workshops in order to improve NOC members skills*
- Provide consultancy: explaining UCC services possibilities, identifying customer requirements
- Focus on delivering a world class customer experience
- Negotiate terms & conditions with key suppliers & partners
- Field questions, find answers, engage partners pro-actively seeking new UCC opportunities from prospects and existing customers
- Utilize a consultative approach to UCC and understand how that technology enables business
- Develop trust and relationships with internal and external partners to effectively and efficiently move complex sales and services opportunities to close for the customers
- Responsible for the knowledge management: write product documentation, installation guides, customer non-standard solutions,...
- Educate and develop the sales teams UCC solutions selling
- Stay current on new UCC technology trends and market behavior
- Liaise with sales department to identify technical requirements and develop solutions
- Contribute to sales presentations showcasing all technical features and processes

### Requirements:

This position offers attractive financial conditions as well as the opportunity to grow and develop within an organization that's ideal for those who are into technology and driven to achieve.
